## NEWSLETTER JANUARY 2024

Finally, 2024 has begun! We hope your Christmas have been wonderful and you have entered the new year well. For us in Pot Olé we are excited to attend in the upcoming fairs. You can find us at FORMEX on the 16th - 18th of January, OSLO DESIGN FAIR on the 21th - 23th of January and FORMLAND SPRING on the 4th - 6th of February.

### SEED POT 30

Our "Seed Pot 30" is a must-have for spring. The zinc seed tray can be used both indoors and outdoors. With its classic look, it will be able to fit into any home. Seeds or cuttings are planted at the beginning of the year and then the tray can be placed in the kitchen or in the greenhouse. The trays are made of hot-dip galvanized zinc, which makes it possible to sow edible plants.

### BIG POTS

We have a large selection of popular French-inspired big outdoor terracotta pots. They have a natural and rustic look that gives any garden the wanted finish. The quality is as always high, and the pots can therefore stay in the garden and at home all year round and for many decades. All our pots are frost resistant and handmade.

### PASTEL POTS

We have pots in all the popular spring- and summer colors. The pastel colors are perfect for the upcoming season in 2024! Their fine appearance provides a fresh and bright look after a dark and cold winter. They come in several different colors, shapes and sizes.
